INDEPENDENT AUDITORS' REPORT

Board of School Directors
Loyalsock Township School District
Williamsport, Pennsylvania:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of Loyalsock Township School District (District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the District as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on page 5, Budgetary Comparison Schedule - General Fund on page 46, Schedule of Changes in the District's Total Other Postemployment Benefits Liability - District Plan on page 47, Schedule of the District's Proportionate Share of the Net Other Postemployment Benefits Liability - Premium Assistance Program on page 48, Schedule of the District's Other Postemployment Benefits Plan Contributions - Premium Assistance Program on page 49, Schedule of the District's Proportionate Share of the Net Pension Liability on page 50, and Schedule of the District's Pension Plan Contributions on page 51 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in

accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 5, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019

Analysis of Overall Financial Position and Results of Operations Over the Past Fiscal Year

Governmental Activities - On **June 30, 2019**, the District's total net position from governmental activities was \$(12,536,264). At year end, the District's total net position of Governmental Activities decreased by approximately \$327,000 from the previous year end.

The District continued to experience increases in the costs for regular instruction, healthcare, retirement and special education instruction. Healthcare increases and projected retirement rate increases to the Pennsylvania School Employees Retirement System (PSERS) continue to be a long term concern for the District. The Board of School Directors was able to balance the budget by increasing real estate taxes as the final millage rate increased to 14.67 mills, (\$14.67 on each \$1,000 assessment) to the taxpayers.

Business - Type Activities - Food Service had total net position of \$(204,504) as of **June 30, 2019**. At year end, the District's total net position of the business-type activities increased by approximately \$5,000 from the previous year end.

- The General Fund did not make any transfers to the Food Service Fund.

Table 1 summarizes the assets, liabilities, and net position of the District at **June 30, 2019**, and June 30, 2018

Budgetary Variances

- ◆ Total General Fund Revenues and other financing sources exceeded the final budgeted revenues by approximately \$933,000 or 4.12%.
 - Budgetary estimates differed in the following areas:
 - Local revenues - The revenue from local sources exceeded the final budget by approximately \$872,000. Budget estimates vary in the following areas:
 - Earned Income Taxes - this amount exceeded our budget estimate by approximately \$288,000 as the economy and employment are steady and have been bolstered by the additions of businesses within Loyalsock Township. Additionally, the collector continued to work diligently to ensure that all municipalities received funds due and reduced the backlog of distribution of funds.
 - Real Estate Transfer Taxes - approximately \$373,000 over budget as more properties transferred ownership than expected during the 2018-2019 fiscal year and the Loyal Plaza sold for \$28.8 million.
 - Earnings on Interest - approximately \$118,000 over budget due to increased interest rates for the District's General Fund account and certificate of deposits.
 - State revenues - The Revenue from state sources was more than the final budget by approximately \$135,000. Budget estimates vary in the following areas:
 - Section 1305 & 1306 - resulted in increased revenues of approximately \$3,000 over the final budget.
 - Basic Instruction Subsidy - the state increased the District's final allocation after the final budget was approved which resulted in an increase of approximately \$21,000.
 - Transportation Subsidy Payments - resulted in increased revenues of approximately \$8,000 over the final budget.
 - Social Security & Retirement Payments - was greater than our final budget by approximately \$93,000. This was due to retirements and hiring of new employees.
 - Rent and Sinking Fund Payments - resulted in decreased revenues of approximately \$41,000 under the final budget.
 - Safety & Security Grant - resulted in increases revenues of approximately \$51,000 over the final budget.
 - Federal revenues - The Revenue from federal sources was less than our final budget by approximately \$100,000 as a result of the district choosing not to withdrawal med assistance money.
- ◆ Total General Fund Expenditures and Other Financing Uses exceeded the final budgeted expenditures by approximately \$606,000 or 2.62 %.
 - The District entered into a lease with Apple Computer in 2016. The total cost of the lease was \$466,914 and \$158,576 of the expenditure was recorded for the capitalized equipment. The lease ended in 2018-2019.
 - Alternative and Special Education - was greater than our final budget by approximately \$494,000.

**LOYALSOCK TOWNSHIP SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

- The majority of the variances in expenditures occurred in the salary and benefits portion of the District's budget. Salaries and benefits are approximately 67% of the District's expenditures.

Significant Capital Activity

During the **2018-2019** school year, the District had the following capital activity:

- ◆ The District purchased two new school buses at a total cost of \$152,190.
- ◆ The District purchased a new mower at a cost of \$36,961.
- ◆ The District purchased a new gas fired burner at Schick at a total cost of \$12,315.
- ◆ The District purchased new security window tint for each school building and district service center at a total cost of \$45,410.
- ◆ The District purchased new wireless access points throughout the campus at a cost of \$33,462.
- ◆ The District resealed the middle school parking lot and made upgrades to fencing along parking lot at a total cost of \$20,380.
- ◆ The District finished the siding of the bus garage at a total cost of \$39,350.
- ◆ The auditorium at the high school/middle school was completed at a cost of \$280,762. The project was financed through a 2014 issued bond.
- ◆ During the 2019-2020 school year, the District will continue to evaluate the need for capital projects. The District plans to complete the construction of the new track team facility at the Schick campus. The District will use the remaining 2014 issued bond to finance this project.
- ◆ During the 2018-2019 school year, the District will continue the lease agreement for its property located at 1720 Sycamore Road, Montoursville, PA 17754 with a gas and oil company and will continue to generate an additional \$162,770 in revenue.

Currently Known Facts, Decisions or Conditions:

Governmental Activities - The District approved a budget that will have no increase of taxes for the 2019-2020 school year. The District continues to benefit from growth and refinancing of bond issues during times of historically low interest rates. The Loyalsock Township school district continues to be financially stable and the Board of Education and administration continue to provide quality education to our students at an affordable cost to our taxpayers.

The District has settled a contract with the professional staff through June 30, 2022 and our support staff contract has been ratified and is in place through June 30, 2021.

The Public School Employees Retirement System (PSERS) continues to project increased rates in employer contributions over the next several years. The district contributed a rate of 33.43% for the 2018-2019 school year. The rate for the 2019-2020 school year is 34.29%. The rate increases for future years have the potential for a significant impact on the Loyalsock Township School District and all schools in the Commonwealth of Pennsylvania. The District has prepared for the rate increases and has currently committed \$2,595,000 of fund balance for future retirement rate expenditures.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT
OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2019

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS \$ (255,567)

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense, net of deletions, exceeded capital outlays, in the current period. (1,160,258)

Because some property taxes will not be collected for several months after the District's fiscal year end, they are not considered as "available" revenues in the governmental funds. (4,284)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. 1,841,957

Repayment of capital lease principal is an expenditure in the governmental funds; however, capital leases entered into during the year increase long-term liabilities and the repayment reduces long-term liabilities in the statement of net position. 164,174

In the statement of activities, certain operating expenses are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of the financial resources used (essentially, the amounts actually paid).

These expenses consist of:

Compensated absences and special termination benefits (43,930)

Other postemployment benefit related costs (717,412)

Pension related costs (158,008)

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. 6,547

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

1. SIGNIFICANT ACCOUNTING POLICIES:

The financial statements of the Loyalsock Township School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District's accounting policies are described below.

Reporting Entity

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The criterion for including a potential component unit within the reporting entity is the significance of their operational or financial relationship with the District. Based upon the application of this criterion, the reporting entity will consist solely of the accounts and funds of the District.

Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

These are the funds through which most governmental functions typically are financed. The funds included in this category are as follows:

General Fund

This fund is used to account for and report all financial resources not accounted for and reported in another fund. The fund balance is available for any purpose provided it is expended or transferred according to the general laws of Pennsylvania.

Capital Projects Fund

This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Debt Service Fund

This fund is used to account for resources that are restricted, committed, or assigned to expenditure for principal and interest.

PROPRIETARY FUND

Enterprise Fund

This fund (food service fund) is used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

FIDUCIARY FUNDS

Trust and Agency Funds

These funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Basis of Presentation and Accounting

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the District except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or government function is self-financing or draws from the general revenues of the District.

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds, if applicable, are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers delinquent real estate taxes and derived tax revenues to be available if they are collected within 60 days and 30 days of the end of the fiscal period, respectively. Unearned revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for debt service, prepaid expenses, and other long-term obligations, which are recognized when paid. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

The proprietary fund is accounted for using the accrual basis of accounting and the flow of all economic resources (measurement focus). This basis of accounting and measurement focus emphasizes the measurement of net income similar to the approach used by commercial enterprises, and revenues are recorded when earned and expenses are recorded when incurred. With this measurement focus, all assets and liabilities associated with the operation of this fund are included on the statement of net position. The statement of changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating revenues and expenses which generally result from providing services and producing and delivering goods in connection with a proprietary fund's principle ongoing operations. Operating expenses for the proprietary funds include the cost of personal and contracted services, supplies, utilities and depreciation on capital assets.

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary funds are reported using the economic resources measurement focus.

Budgetary Procedures and Budgetary Accounting

An operating budget is adopted in each year for the general fund on the modified accrual basis of accounting.

At the fund level, actual expenses cannot exceed budgeted appropriations; however, with proper approval of the Board, budgetary transfers can be made. The budgetary comparison schedule presented in this report reflects the final budget authorization, including all amendments and budgetary transfers.

The Pennsylvania School Code dictates specific procedures relative to adoption of the District's budget and reporting of its financial statements, specifically:

- The District, before levying annual school taxes, is required to prepare an operating budget for the succeeding fiscal year.
- The District is required to publish notice by advertisement, at least once, in two newspapers of general circulation in the municipality in which it is located, and within fifteen days of final action, that the proposed budget has been prepared and is available for public inspection at the administrative office of the District.
- The Board may make transfers of funds appropriated to any particular item of expenditure by legislative action. An affirmative vote of two-thirds of all members of the Board is required.
- Fund balances in budgetary funds may be appropriated based on resolutions passed by the Board, which authorized the District to make expenditures. Appropriations lapse at the end of the fiscal period. In order to preserve a portion of an appropriation for which an expenditure has been committed by a purchase order, contract or other form of commitment, an encumbrance is recorded. Encumbrances outstanding at year-end are reported as reservations of fund balances.
- Included in the general fund budget are program budgets as prescribed by the state and federal agencies funding the program. These budgets are approved on a program by program basis by the state or federal funding agency.
- Capital budgets are not established for capital improvements and capital projects in the capital projects fund. Additionally, all transactions of the capital projects fund are approved by the Board prior to commitment, thereby constructively achieving budgetary control.
- The District does not adopt a formal budget for the proprietary fund and debt service fund.

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end and outstanding encumbrances at year-end are reappropriated in the next year. As of June 30, 2019, the District had no outstanding encumbrances. Accordingly, no differences exist between actual results and the applicable budgetary data presented in the fund financial statements. A reserve for encumbrances is not reported on the government-wide financial statements.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and liquid asset funds (Pennsylvania Local Government Investment Trust), carried at cost.

The District pools cash resources of its various funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash account is available to meet current operating requirements.

Investments

Investments held in the general fund consist of certificates of deposit stated at cost which approximates fair value. For purposes of determining realized gain or loss on sale, the cost of securities sold is determined by using the specific identification method. The fair value of instruments is estimated based on bid quotations received from securities dealers.

The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs (See Note 3).

Interfund Receivables and Payables

During the course of operations, transactions may occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the governmental funds balance sheet. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Prepaid Expenses

Prepaid expenses represent payments made by the District in the current year to provide services occurring in the subsequent fiscal year.

Inventories

Proprietary fund food inventories of \$3,040 include \$52 of food commodities donated by the federal government, which are valued at fair value. All other food or supply

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

inventories are valued at the lower of cost (first-in, first-out method) or fair value and are expensed as consumed.

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both governmental and proprietary funds.

Taxes Receivable

Taxes receivable are reported at their gross value and, where appropriate, are reduced by the estimated portion expected to be uncollectible. Taxes which become payable during fiscal year 2019 and are uncollected as of June 30, 2019 are recorded as taxes receivable in the government-wide financial statements, net of amounts estimated to be uncollectible. Management estimates the adequacy of the allowance for uncollectible taxes receivable based upon the historical experience in collecting these taxes. There was no allowance for uncollectible taxes receivable as of June 30, 2019.

Capital Assets

Capital assets, which includes land and improvements, buildings and building improvements, furniture and equipment and construction in progress are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. Capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. The District defines capital assets as assets which have an original cost of \$2,500 or more and an estimated useful life in excess of one year. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized.

Capital assets of the District are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	20 years
Buildings and building improvements	20-50 years
Furniture and equipment	5-20 years

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities' and business-type activities' statement of net position. Bonds payable are reported net of the applicable bond premium or discount. Prepaid bond insurance is expensed over the life of the related debt. Other bond issuance costs are expensed in the period incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

Leasing

The District leases equipment under capital lease arrangements (See Note 10).

Bond Premium, Discount and Amortization

The discount recognized upon the issuance of the 2014 bonds is being amortized utilizing the straight-line method, over the life of the bonds. The premiums recognized upon the issuance of the 2012B, 2015, and 2017 bonds are being amortized utilizing the straight-line method, over the life of the bonds. The net premium has been capitalized and included in bonds payable in the accompanying statement of net position. The net premium included in amortization expense included in the statement of activities amounted to \$26,606 for the year ended June 30, 2019.

Loss on Refinancing and Amortization

The loss recognized on the refinancing of Series 2002, 2010, and 2012A bonds is being amortized utilizing the straight-line method over the life of the bonds. The loss has been capitalized as a deferred outflow of resources in the accompanying statement of net position. Amortization expense included in the statement of activities amounted to \$134,649 for the year ended June 30, 2019.

Fund Equity

In the governmental fund financial statements, the fund balance amounts are classified based on the level of constraint placed upon funds, as follows:

- *Nonspendable* - fund balance that cannot be spent because it is not in spendable form such as inventories, prepaids and long-term loans and notes receivable (unless the proceeds are restricted, committed, or assigned).
- *Restricted* - fund balance includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- *Committed* - fund balance includes amounts that can be used only for the specific purposes determined by formal action of the Board of School Directors.
- *Assigned* - fund balance includes amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. The finance committee of the Board of School Directors has the authority to assign a fund balance.
- *Unassigned* - fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Unrestricted net position for proprietary funds represent the net position available for future distribution.

The District has formally adopted a minimum fund balance policy for the general fund. The policy states that if the unassigned general fund balance is below six percent of budgeted expenditures, the Board must use any available fund balance first to re-

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

establish unassigned fund balance back to six percent of the budgeted expenditures for that fiscal year when any of these amounts are available for expenditure.

Fund Balance Flow Assumptions

The District's policy is to first apply restricted fund balance, then committed, assigned, and unassigned, respectively when an expenditure is incurred for purposes for which amounts in any of these classifications could be used.

Net Position

In the government-wide financial statements, net position represents assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings or deferred inflows of resources used for the acquisition, construction or improvement of those assets and increased by any related deferred outflows of resources.

Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. When the District incurs an expense for which it may use either restricted or unrestricted net position, it uses restricted net position first unless unrestricted net position will have to be returned because it was not used.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of PSERS and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Inflows/Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources, as appropriate. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will *not* be recognized as an outflow of resources (i.e. expense) until that time.

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

In addition to liabilities, the statement of net position and governmental funds balance sheet report a separate section for deferred inflows of resources, as appropriate. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of resources that applies to future periods and so will *not* be recognized as an inflow of resources (i.e. revenue) until that time.

Net Position Flow Assumptions

Sometimes the District will fund outlays for a particular purpose with both restricted and unrestricted resources. It is the District's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The District's financial instruments consist of cash and cash equivalents, investments, taxes and other receivables, accounts payable and noncurrent liabilities. The carrying value of these financial instruments approximates their fair values at June 30, 2019.

Cash Flows

For purposes of the statement of cash flows, the proprietary fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

2. CASH AND CASH EQUIVALENTS:

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk.

As of June 30, 2019, \$8,647,710 of the District's bank balance of \$9,147,710 was exposed to custodial credit risk as follows:

Collateralized with securities held by the pledging financial institution	<u>\$8,647,710</u>

3. INVESTMENTS:

State statutes authorize the District to invest in obligations of the U.S. treasury, agencies and instrumentalities of the U.S. government, deposits in savings accounts, certificates of deposit, the Pennsylvania Local Government Investment Trust (PLGIT), commercial paper, bankers' acceptances, negotiable certificates of deposit, and insured bank deposit reciprocals as long as certain safeguards related to credit quality and maturity are met.

As of June 30, 2019, investments consist of the following:

<u>Description</u>	<u>Maturities</u>	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Certificates of deposit	12 months	\$1,509,562		\$1,509,562

Total		<u>\$2,643,407</u>	<u>\$ </u>	<u>\$2,643,407</u>	<u>\$ </u>

PLGIT is a common law trust organized to provide Pennsylvania school districts with a convenient method of pooling their cash for temporary investment. PLGIT functions similar to a money market fund, seeking to maintain a net asset value of \$1 per share. Shares may be withdrawn at any time. Portfolio securities are valued at amortized cost, which approximates fair value as of June 30, 2019. PLGIT may invest in any securities authorized by Section 440.1 of the Pennsylvania School Code. All investments in an external investment pool that is not SEC-registered are subject to oversight by the Commonwealth of Pennsylvania.

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District does not have a formal investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2019, the investments were rated as follows:

<u>Description</u>	<u>Standard & Poor's</u>
PLGIT	AAA

Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer. The District has no investments subject to concentration of credit risk.

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

Reconciliation to Financial Statements

4. REAL ESTATE TAXES:

The tax on real estate, as levied by the School Board, was 14.67 mills (\$14.67 per \$1,000 of assessed valuation) for fiscal year 2019. The original assessed value at July 1, 2018, upon which the 2019 levy was based, was \$764,709,440. Assessed valuations of property are determined by Lycoming County and the elected tax collectors are responsible for collection. The schedule for real estate taxes levied for each fiscal year is as follows:

July 1	Levy Date
July 1 - August 31	2% Discount Period
September 1 - October 31	Face Payment Period
November 1 - December 31	10% Penalty Period
January 1	Lien Date

Current tax collections for the year ended June 30, 2019 were 97.44% of the tax levy. Estimated collectible delinquent real estate taxes at June 30, 2019 amounted to \$274,115.

5. INTERFUND BALANCES:

As of June 30, 2019, interfund receivables and payables that resulted from various interfund transactions were as follows:

	<u>Due from Other Funds</u>	<u>Due to Other Funds</u>
General Fund	\$ 76,755	\$ 67,317
Food Service Fund	<u>67,317</u>	<u>76,755</u>

8. COMPENSATED ABSENCES:

District employees who are required to work on a twelve-month schedule are credited with vacation at rates which vary with length of service or job classification. Vacation may be taken or accumulated within certain limits and is paid prior to retirement or termination at the employee's current rate of pay. Most District employees are credited with twelve sick days and three personal leave days annually. However, the accumulation of personal days is not compensated upon termination or retirement. At the time of retirement, eligible Act 93 support personnel, education professionals, and education support professionals are entitled to benefits at varying rates based on unused sick leave. In estimating the sick leave liability, the District determined employees who currently are eligible to receive benefits as well as other employees who are expected to become eligible in the future to receive such payments. At June 30, 2019, the estimated liability for accumulated compensated absences was \$213,483.

9. NONCURRENT LIABILITIES:

10. OTHER POSTEMPLOYMENT BENEFITS (OPEB):

Single Employer Defined Benefit OPEB Plan

Plan Description

The District's OPEB include a single employer defined benefit plan that provides postretirement healthcare benefits. The School Board has the authority to establish and amend benefit provisions. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The plan does not issue any financial report and is not included in the report of any public employee retirement system or any other entity.

Teachers and administrative retirees who retire with at least 35 years of public school service in Pennsylvania are eligible to receive benefits up to age 65. Teachers and administrative employees who were members of PSERS prior to July 1, 2011, may also qualify by retiring with 30 years of public school service in Pennsylvania once they have attained the age of 60 or have attained the age of 62 with 1 year of public school service in Pennsylvania. Teachers and administrative employees who became

members of PSERS on or after July 1, 2011, may also qualify by retiring with 3 years of public school service in Pennsylvania while under the age of 65. The employee also shall have completed 15 years of service with the District. Retired professional employees who are ineligible under the above requirements and choose to participate in the medical plan must pay 100% of the composite rate cost of such coverage.

Benefits Provided

The plan provides post-retirement medical, prescription drug, dental, and vision benefits. The cost of such benefits coverage for retirees and spouses is determined by the contract provisions at the time of retirement.

Employees Covered by the Benefit Terms

At July 1, 2018, the following employees were covered by the benefit terms:

Active participants	158
Retired participants	<u>26</u>
Total	<u>184</u>

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the Board of School Directors. The plan is funded on a pay-as-you-go basis, i.e. premiums are paid annually to fund the health care benefits provided to current retirees. Retiree contribution rates and amounts vary depending on classification and years of service with the District. The District paid premiums of approximately \$22,000 for the fiscal year ended June 30, 2019. The retiree contributions made by plan members were approximately \$104,000 for the fiscal year ended June 30, 2019.

Total OPEB Liability, OPEB Expense, and Deferred Outflows of Resources Related to OPEB

At June 30, 2019, the District reported a total OPEB liability of \$1,822,694. The total OPEB liability was measured as of July 1, 2018, and determined by an actuarial valuation as of July 1, 2018.

The District's change in its total OPEB liability for the year ended June 30, 2019 was as follows:

Multiple Employer Cost-Sharing Defined Benefit OPEB Plan

Health Insurance Premium Assistance Program

PSERS (System) provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the health insurance account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' health options program (HOP). As of June 30, 2018, there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2018 there were no assumed future benefit increases to participating eligible retirees.

Employer Contributions

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2019 was 0.83% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$80,478 for the year ended June 30, 2019.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the District reported a liability of \$1,449,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

determined by rolling forward the System's total OPEB liability as of June 30, 2017 to June 30, 2018. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2018, the District's proportion was 0.0695%, which was a decrease of 0.0007% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized OPEB expense in the government-wide statement of activities as follows:

Governmental activities	\$56,899
Business-type activities	<u>1,639</u>
Total	<u>\$58,538</u>

At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 8,947	
Changes in assumptions	22,908	\$ 54,907

Total	<u>\$114,779</u>	<u>\$102,221</u>

\$80,478 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

2025	3,130

Actuarial Assumptions

The total OPEB liability as of June 30, 2018, was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

- Actuarial cost method - entry age normal - level % of pay.
- Investment return - 2.98% - S&P 20 Year Municipal Bond Rate.
- Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium assistance reimbursement is capped at \$1,200 per year.
- Assumed healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 mortality tables for males and females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 mortality improvement scale.
- Participation rate:
 - Eligible retirees will elect to participate pre age 65 at 50%
 - Eligible retirees will elect to participate post age 65 at 70%

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2016 determined the employer contribution rate for fiscal year 2018.
- Cost method: Amount necessary to assure solvency of premium assistance through the third fiscal year after the valuation date.
- Asset valuation method: market value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 combined healthy annuitant tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 combined disabled tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 combined healthy annuitant tables with age set back 3 years for both genders assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the PSERS Board. Under the program, as defined in the retirement code employer contribution rates for premium assistance are established to provide reserves in the health insurance account that are sufficient for the payment of premium assistance benefits for each succeeding year.

Discount Rate

The discount rate used to measure the total OPEB liability was 2.98%. Under the plan's funding policy, contributions are structured for short term funding of premium assistance. The funding policy sets contribution rates necessary to assure solvency of premium assistance through the third fiscal year after the actuarial valuation date. The premium assistance account is funded to establish reserves that are sufficient for the payment of premium assistance benefits for each succeeding year. Due to the short term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.98% which represents the S&P 20 year municipal bond rate at June 30, 2018, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual premium assistance. As of June 30, 2018, retirees premium assistance benefits are not subject to future healthcare cost increases. The annual premium assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2017, 93,380 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2017, 1,077 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on healthcare cost trends as depicted below.

The following presents the System net OPEB liability for June 30, 2018, calculated using current healthcare cost trends as well as what the System net OPEB liability would be if health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

Payables to the OPEB Plan

At June 30, 2019, the District had an accrued balance due to PSERS, including contributions related to OPEB of \$19,370. This amount represents the District's contractually obligated contributions for wages earned in April 2019 through June 2019. The balance was paid in September 2019.

11. PENSION BENEFITS:

Plan Description

PSERS (System) is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

(as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Member Contributions

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation.

Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions

The school districts' contractually required contribution rate for fiscal year ended June 30, 2019 was 32.60% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS

any unfunded accrued liability. Contributions to the pension plan from the District were \$3,160,990 for the year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability of \$33,363,000 for its proportionate share of the net pension liability in the government-wide statement of net position. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2017 to June 30, 2018. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2018, the District's proportion was 0.0695%, which was a decrease of 0.0007% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense in the government-wide statement of activities as follows:

Governmental activities	\$3,230,490
Business-type activities	<u>93,059</u>
Total	<u>\$3,323,549</u>

At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions

The total pension liability as of June 30, 2018 was determined by rolling forward the System's total pension liability as of June 30, 2017 to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - entry age normal - level % of pay
- Investment return - 7.25%, includes inflation at 2.75%
- Salary growth - effective average of 5.00%, comprised of inflation at 2.75% and 2.25% for real wage growth and for merit or seniority increases
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study that was performed for the five year the period ending June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the PSERS Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or a 1-percentage-point higher (8.25%) than the current rate:

Payables to the Pension Plan

At June 30, 2019, the District had an accrued balance due to PSERS, including contributions related to pension of \$760,799. This amount represents the District's contractually obligated contributions for wages earned in April 2019 through June 2019. The balance was paid in September 2019.

12. SIGNIFICANT GROUP CONCENTRATIONS OF CREDIT RISK:

The District provides education and related services to the residents of Loyalsock Township, Pennsylvania. Its service area is located within the geographic boundaries of the District. The District assesses taxpayers, within its service area, based upon taxing powers at its disposal. The ability of each of the District's taxpayers to honor their assessed obligations to the District is dependent upon economic and other factors affecting the taxpayers.

13. CONTINGENCIES:

Grants

The District participates in both state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for any expenditures which may be disallowed pursuant to the terms of these grant programs. It is the opinion of management that requests for reimbursements, if any, by either state or federal governments based on subsequent audits will not be material in relation to the District's financial statements as of June 30, 2019.

Litigation

The District is subject to claims arising out of its normal operations. In the opinion of management, after review and consultation with counsel, any proceedings that may be assessed will not have a material adverse effect on the financial position of the District or results of its operations.

Risk Management

The District is exposed to various risks of losses related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters. It is the policy of the District to purchase commercial insurance for the risks of loss to which it is exposed, including workers' compensation and employee health and accident insurance.

14. COMMITMENTS:

The District has contractual obligations for the purchase of equipment and construction of track storage and concession building in the amount of approximately \$654,000 of which approximately \$86,000 has been paid or accrued.

15. JOINT VENTURE:

The District and other surrounding educational institutions created a joint venture, the Lycoming County Insurance Consortium Pooled Trust (Trust). The District self-insures through the Trust for certain health care benefits provided to current and former employees. The Trust has purchased an excess policy which covers employee health benefit claims in excess of \$375,000. Claims are recognized as an expense when paid (cash basis) which is not materially different from the accrual basis. For the year ended June 30, 2019, the District made payments for health care benefit claims of approximately \$2,447,000 to the Trust. Audited financial statements of the Trust are available.

The District and other surrounding educational institutions created a jointly governed organization, the Lycoming Career and Technology Center (Center), to provide vocational and technical education for students of the participating school districts. The governing board of the Center is comprised of a director from each participating school district. For the year ended June 30, 2019, the District paid approximately \$214,000 to the Center. As of June 30, 2019, there were no amounts due to or due from the Center. Audited financial statements of the Center are available.

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

16. SUBSEQUENT EVENTS:

Subsequent events have been evaluated through February 5, 2020, which is the date the financial statements were available to be issued.

17. RECENT ACCOUNTING PRONOUNCEMENTS:

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This statement establishes criteria for identifying fiduciary activities based on whether the government controls the assets of the fiduciary activity and the beneficiaries with whom a fiduciary relationship exists. Activities that meet the criteria should be reported as a fiduciary fund in the basic financial statements and include a statement of fiduciary net position and a statement of changes in fiduciary net position. This statement is effective for fiscal years beginning after December 15, 2018. The District has not determined the effect on the financial statements due to adoption of this statement.

In June 2017, GASB issued Statement No. 87, *Leases*. This statement requires a lessee to recognize in the financial statements a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. This statement also requires a lessor to recognize a lease receivable and a deferred inflow of resources for the lease term. Short-term leases (12 months or less) are recognized as outflows or inflows of resources based on the payment provisions of the lease contract. This statement is effective for fiscal years beginning after December 15, 2019. The District has not determined the effect, if any, on the financial statements due to adoption of this statement.

In June 2018, GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. This statement required interest cost incurred before the end of a construction period to be recognized as an expense, in the period incurred, in financial statements prepared using the economic resources measurement focus. Such interest cost should not be capitalized as part of the historical cost of a capital asset. Such interest cost should be recognized as an expenditure on a basis consistent with governmental fund accounting principles in financial statements prepared using the current financial resources measurement focus. This statement is effective for fiscal years beginning after December 15, 2019. The District has not determined the effect if any, on the financial statements due to adoption of this statement.

LOYALSOCK TOWNSHIP SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2019

1. BASIS OF PRESENTATION:

The accompanying schedule of expenditures of federal awards (Schedule) includes the federal award activity of Loyalsock Township School District (District) under programs of the federal government for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to be and does not present the financial position, changes in financial position, or cash flows of the District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. INDIRECT COST ALLOCATION PLAN:

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

**INDEPENDENT AUDITORS' REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of School Directors
Loyalsock Township School District
Williamsport, Pennsylvania:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund, of Loyalsock Township School District (District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 5, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify a certain deficiency in internal control that we consider to be a material weakness and a significant deficiency.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2019-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2019-002 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

District's Response to Findings

The District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT
ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of School Directors
Loyalsock Township School District
Williamsport, Pennsylvania:

Report on Compliance for Each Major Federal Program

We have audited Loyalsock Township School District's (District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2019-003, that we consider to be a material weakness.

The District's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2019

SECTION II - FINDINGS RELATING TO THE FINANCIAL STATEMENT AUDIT AS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GENERALLY ACCEPTED AUDITING STANDARDS AND GOVERNMENT AUDITING STANDARDS

2019-001. RECORDING CASH RECEIPTS - AGENCY FUND

Criteria: GAAP requires that the total amount of assets and liabilities be presented on the statement of fiduciary net position.

Condition: The District's year end closing procedures did not identify Agency fund cash in the amount of \$3,212.

Cause: Cash receipts received by the District were not remitted to the business office on a timely basis.

Effect: Agency fund cash and liabilities were understated.

Questioned Costs: None

Perspective Information: 6 out of 9 receipts selected for testing were not recorded in the proper period.

Identification of Repeat Findings: Not applicable.

Recommendation: The District should deposit receipts daily or the next available business day after receipt, in accordance with Student Activities Accounting Manual.

Views of Responsible Officials: Management agrees with the finding.

Planned Corrective Action: See the District's corrective action plan.

2019-002. ACCOUNTS PAYABLE - CAPITAL PROJECTS FUND

Criteria: GAAP requires that the total amount of current liabilities be presented on the statement of net position.

Condition: The District's year end closing procedures did not identify Capital Project fund liabilities in the amount of \$9,142.

Cause: The District's procedures are not adequately designed to ensure that the total amount of current liabilities are presented in the financial statements.

Effect: Capital Project fund accounts payable and expenditures were understated.

Questioned Costs: None

Perspective Information: Not applicable.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2019

Identification of Repeat Findings: Not applicable.

Recommendation: The District should evaluate contracts, related progress billings and retainage and payments to identify potential year-end liabilities.

Views of Responsible Officials: Management agrees with the finding.

Planned Corrective Action: See the District's corrective action plan.

SECTION III - FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

U.S. DEPARTMENT OF AGRICULTURE

2019-003. National School Lunch Program - CFDA No. 10.555 (passed through the Pennsylvania Department of Education and the Pennsylvania Department of Agriculture), School Breakfast Program – CFDA No. 10.553 (passed through the Pennsylvania Department of Education), Summer Food Service Program for Children - CFDA No. 10.559 (passed through the Pennsylvania Department of Education); Grant Period - Year Ended June 30, 2019.

Criteria: The number of free and reduced meals served is used to calculate the District's federal and state reimbursement.

Condition: The number of meals served is entered into the Compass system for reimbursement. The information is not reviewed for accuracy.

Cause: The Food Service Director enters the information into the Compass system, but no one independent of the data input process reviews the information.

Effect: Reimbursements for free and reduced meals served could be incorrect.

Questioned Costs: None.

Perspective Information: Not applicable.

Identification of Repeat Findings: Not applicable.

Recommendation: An individual, independent of the data input process, should review the input for accuracy and the review should be documented.

Views of Responsible Officials: Management agrees with the finding.

Planned Corrective Action: See the District's corrective action plan.

**LOYALSOCK TOWNSHIP SCHOOL DISTRICT
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2019**

2018-001. REVENUE – CAPITAL PROJECTS FUND (MATERIAL WEAKNESS)

Condition: The District received a cash contribution of \$49,171 from a local source, with a purpose restriction, that was recorded as a reduction of an expenditure account.

Recommendation: The District should not net contributions of cash required to be recognized as revenue against an expenditure account.

Current Status: The district has reviewed any and all donations from local sources to verify no revenue has been recognized against an expenditure account.

2018-002. SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS (MATERIAL WEAKNESS)

Condition: An adjustment was required to the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The individual, who reviews the SEFA for accuracy, should compare the expenditures reported on the SEFA to the expenditures reported in the general ledger.

Current Status: The district reviews the SEFA and compares the expenditures with the general ledger along with the June Reconciliation of Cash On Hand Report.

2018-003. Title I – Grants to Local Education Agencies – CFDA No. 84.010: Passed Through Pennsylvania Department of Education, Grant Period – Fiscal Year Ended June 30, 2018.

The discussion for finding 2018-002 also applies to this finding.
