Monday, April 6 -
Thursday, April 9, 2020

LTMS Weekly Update

Dear Student and Guardians,

We hope to find your family well, as we continue to travel through uncharted territory as it relates to providing educational opportunities to our students. We appreciate your patience and understanding as we have worked on meeting the basic needs for our families and staff, as well as providing a vast number of new resources to move from enrichment and review assignments to planned virtual instruction. As we are now following state guidelines with planned instruction, there is a necessity to move closer to a typical schedule for students with a reasonable plan to keep pace in standards and learning expectations. Hopefully, students have made contact with all of their teachers to complete past assignments and learn about the virtual platforms they will be using for planned instruction in the future.

What Students Will Need to Do Remote Learning?

iPad (and/or alternative device charged and ready) and the ability to reference any resource they may have.

- Students please look at your school email before Monday morning to check instructional plans.
- Students please check your email at least once per day as it will be the primary means for communicating many items from teachers and staff.
 - To access Zoom meeting codes in order to be part of virtual groups hosted by their teachers.

Internet Access - If you still do not have Internet access directly from home, there are a few solutions:

- Comcast and many other providers are currently offering free WiFi – contact them.
- Free hotspots by some cell providers on smartphones – contact your provider.
- Use WiFi at HS entrance and gain a signal to at least download/upload what is needed to do required work.

Technology Help – if any student requires help with his/her iPad or some aspect of accomplishing their remote learning, please contact our technology team on our website “Site Shortcuts” with a “[Technology Helpdesk](#)” ticket.

Moodle and/or Google Classroom – many students are familiar with these learning management systems which will be the primary platforms for what students will be expected to complete for each of their teachers.

Zoom - an extremely useful and easy video conferencing tool that students will use is an app currently located on their iPad called Zoom. Teachers will be delivering instruction and assisting students directly with Zoom. We recommend students use earbuds and/or work in a quiet place as possible when working on schoolwork.

IEP - students with disabilities who currently work with a special education teacher will be contacted by their case manager and/or co-teacher in a specific course as necessary to provide the necessary accommodations and modifications during this period of remote learning.

Grading - grades will still be assigned and viewable in the student and [parent portal](#) as usual, so please continue to access regularly. If you have any portal access issues, please once again submit a [technology helpdesk](#) ticket.

LTMS Weekly Update Continued

Teaching and Learning Plan:

Instruction – starting Monday, teachers will deliver new planned instruction, presenting assignments to students no more than a few times per week. Some teachers may do their lesson “live” using Zoom, some may have their lesson as a recorded video or provide a PowerPoint lesson with a voiceover of them teaching.

- **Lessons** most teachers have indicated they will use 20 minutes of content (skill/lecture/notes) and include students doing a variety of tasks using their iPads/apps as part of an assignment that is given.
- **Classwork** (including homework) will be expected to be uploaded/shared with teacher via Moodle, Google Classroom, Dropbox, within app, etc. to their teacher.
- **Timeline** there may be connectivity issues but assignments **MUST** be submitted within one week of issue.
- **Practice** provide tasks/assignments for students (independent or group in breakout sessions, etc.)

Office Hours – teachers will offer opportunities for review to help students with questions they may have on lessons, assignments, etc. Most teachers be available for at least an hour a day for live feedback. Teachers can invite sections of students to an open live meeting and students are able to come and go as the need arises. Office hours are provided on the following pages to plan accordingly. Teachers will check emails during the weekday and respond within 24 hours.

Assessment - teachers will likely adapt previously large tests and instead use projects, performance assessments with scoring rubrics, quizzes and smaller formative assessments in digital and uploadable formats.

- **3rd Marking Period** – past assignments prior to the school closing were due by Friday, April 3, 2020.
 - Digital MP3 report cards will be published to the portal on Wednesday, April 8, 2020.
- **4th Marking Period** - students will earn a score for assignments submitted.

Please access the Covid-19 [Counseling Resources](#) on the front page of our website and please refrain from videoing or posting pictures of Zoom meeting sessions to social media pages as you may not be aware of parental permissions.

Best wishes to you and your family during this trying time. If you have any questions or concerns, please continue to submit a technology helpdesk ticket or email your specific teachers, school counselor and myself (principal). Have a great weekend with your family and stay well!

Kind Regards,

Mrs. Sekel, Principal

asekel@lovalsocklancers.org

Mrs. Preisch, School Counselor
