IV. Committee Membership:

- Dan welcomed our new member Noah Bower, Supervisor of Transportation to our meeting.
- PA Safety Committee Certification: This is scheduled for Tuesday, June 8, 2021 from 1:30-3:00 p.m. as an online webinar for all members. Please mark your calendars to attend this webinar.

V. HVAC-Bipolar Ionization:

- The district is looking into putting air purification HVAC systems in our buildings and hoping to have completed this summer. These ionization systems would be put in every cooling/heating system district wide and on the air handlers.
- These systems have proven to cut down on the common cold, allergies, and will help protect from Covid illness.
- Dan advised the committee that the federal funding with Covid related items could become very expensive moving forward. This system cost around 175K. The district has put out bids for this system and received one bid back so far.

VI. COVID-19 Update:

- Recently, our area has been hit with a resurgent of Covid related illnesses. This is probably due to student/adult gatherings. Our district has addressed these issues and done all the contact tracing in our area.

VII. Update:

- School Police Update: Mike Knight provided us with an update of our SRO. The HS Junior/Senior Prom will be Saturday, May 1, 2021 and Paul and Mike will be staffing this event. Mike is working on finalizing a training date. We advise committee when date is set.
- Operations Update: Brian Bubb provided us with a building update. They are changing out lightbulbs to LEDs in all rooms. Hoping to have this completed by the weekend. This new LED lighting makes a true difference...much brighter.

VIII. Good of the Order: Reminder of the June training webinar. Seeing no other business to share the meeting was adjourned.

IX. Next Meeting: May 27, 2021 @ 3:15 p.m. via Zoom
