

In order to better serve our students and families, the District will switch our platform to allow quarantined students to log into their classes via Zoom effective Monday, September 27, 2021. Our technology department will ensure that the Zoom application is loaded on all devices. We feel this change will directly benefit our students who are quarantined and provide them with daily instructional support while they are out. Thanks for your patience as we make this change to benefit our students. Please contact your building principals if any issues arise.
