

## **Curriculum Map: Drawing & Painting I**

Course: DRAWING & PAINTING I Sub-topic: Painting

Grade(s): None specified

**Course Description:** Students will explore increase their knowledge and expertise of drawing and painting as they explore various mediums and techniques used to create original pieces of artwork. Students will expand on their experiences during Foundations of Drawing and Painting to create more complex original artwork. Students will be exposed to traditional and contemporary types of drawings and paintings. Through this exposure and experimentation, students will increase their skills in both realism and surrealism styles of art.
