

Curriculum Map: Entrepreneurship

Course: ENTREPRENEURSHIP Sub-topic: Entrepreneurship

Grade(s): 10 to 12

Course Description: Entrepreneurship focuses on recognizing a business opportunity, starting a business, operating, managing and maintaining a business. Students will be exposed to the development of critical thinking, problem solving, and innovation in this course as they will either be the business owner or individuals working in a competitive job market in the future. In the United States small businesses make up close to 90% of all businesses. Integration of accounting, finance, marketing, business management, legal and economic environments will be developed throughout projects in this course. Students will work to develop a business plan that includes structuring the organization, financing the organization, and managing information, operations, marketing, and human resources. Through various projects, team building activities and lessons students will be engaged in the creation and management of a business and the challenges of being a small business owner. Various forms of technologies will be used to expose students to resources and application of business principles for starting, operating and maintaining a business. Professional communication skills and practices, problem-solving, ethical and legal issues, and the impact of effective presentation skills are enhanced in this course to prepare students to be college and career ready. Employability skills are integrated into activities, tasks, and projects throughout the course standards to demonstrate the skills required by business and industry.
